Explosionproof enclosures – XPCJX series

Cast stainless steel control/junction box

T&B EX™

XPCJX cast stainless steel explosionproof enclosures provide excellent corrosion resistance and durability where environmental conditions require extreme protection. With help from our engineering department, T&B EX™ explosionproof enclosures can be modified for installation with a variety of our explosionproof operator devices, accessories and world class ABB motor control components.

Certifications / Standards:

Features & Benefits:

- 8 standard sizes available
- Flat plate cover design
- Superior corrosion resistant, made with premium 316L cast stainless steel
- Pre-drilled for mounting panel (mounting panel is optional)
- Internal / external grounding screws
- Removable lifting eye bolts (standard on sizes 12x24 and larger)
- Lid-lifter cover alignment device on covers (standard on sizes 12x24 and larger)
- Standard cast-on mounting lugs / feet

Options:

- Conduit (NPT & Metric) and device (NPSM) drilling & tapping
- Auxiliary devices available: breather / drains, flame arrestors and operators
- Custom machining - milling, counter-boring, spot-facing, blind drilled holes, entries, chamfers
- Window kits

Applications:

- As a custom control panel, junction, or pull box
- To provide enclosures for splices and branch circuit taps, terminal blocks, relays and other electrical devices
- This solution is designed and tested to meet the

standards of all industries and applications where explosionproof protection is required. our T&B EX™ Cast Stainless Steel explosionproof enclosures provide protection against harsh and hazardous locations, found within onshore and offshore industries, petrochemical and marine applications.

- XPCJX cast stainless steel explosionproof enclosures provide an alternative to traditional cast aluminum explosionproof enclosures which may become compromised or could break down over time in highly corrosive areas

Material / Materials / Finishes:

- Enclosure – Type 316L cast stainless steel
- Cover bolts - Type 316L stainless steel
- Hinge kits - Type 316L stainless steel
- Gasket (“O”- ring type) - Nitrile

Conforms to:

- Class I, Division 1 & 2, Groups B, C, D
- Class II, Division 1 & 2 Groups E, F, G
- Class III
- Enclosure NEMA Type 4, 4X, 7, & 9
- UL 1203
- CSA C22.2 No. 25 & 30
- UL50
- For IECEx and ATEX certifications, consult factory
