Announcement: IT Optimize discontinued

As our product strategy evolves to fulfill your DCIM needs, Schneider Electric will discontinue the EcoStruxure™ IT Advisor: IT Optimize module.

Since Intel® changed its management of IT Optimize, we assessed the future need for the IT Optimize module and have decided to discontinue it.

We are investigating a replacement to better fit our product portfolio. For IT Advisor, the focus is planning, modeling and optimization of the power and cooling space.

IT Optimize rack licenses will be available until the end of sales on March 29, 2024.

All commercial references for IT Optimize licenses will be discontinued by the end of April 2024.

Schneider Electric will continue to support IT Optimize for three years after the end-of-sales date.

Customers who require support for IT Optimize up to the end of the support date are required to have a valid support contract for IT Optimize. Customers may continue to use IT Optimize after the end of the support date at their own risk.

Module	End of Sales	End of Support
IT Optimize	March 29, 2024	March 29, 2027

[End of life policy](#)
